

Parenting Plan Training for Divorce Attorneys

Co-sponsored Westchester and Rockland Mediation Center

This training is for divorce attorneys with clients that need a workable schedule for their children post separation and/or divorce. While most attorneys are effective addressing distribution, custody, child support and spousal support, they frequently leave the working schedule to the parents with the term “liberal visitation.” All too often “liberal visitation” is rife with conflict and distress for the children as well as the parents. This training will give attorneys the skills to help their clients build a comprehensive and sustainable agreement.
